

Welcome to Grästorp – In the Middle of Västra Götaland!

Grästorp has beautiful and varied scenery with Hunneberg mountain, the river Nossan, a nature reserve, foot-paths and cycle ways. You will also find many rune stones and other historical monuments; in fact some historians claim that this region is the birth place of Sweden as a nation.

Grästorp is beautifully situated south of Lake Vänern and in the vicinity of the cities Vänersborg, Trollhättan and Lidköping. This excellent location combined with good communications by car, bus or train makes it easy to visit Grästorp and other destinations.

Grästorp also offers plenty of activities and attractions, such as a market where farmers sell locally produced quality products, a 18-hole golf course, a concert hall, swimming pool, a agricultural museum, the Royal hunting museum, auctions, hunting, a haunted house and festivals such as the Grästorp Festival in August and the Nossan Festival of Light in October.
